Reduces Infield Prep Time

Need to travel from one location to another?

Makes Travel Easier

Patent Pending

Convenience

Levels & Smoothens Infields.

Engineered to "Level Infields" better than any other groomer on the market - Guaranteed! Pull with a variety of tow vehicles. Heavy duty. Built to last many years.

Adjustable Hitch System

Heavy Duty Actuator

No Air - No Flat Wheels

2 Bladed Leveling Implement

PR72 Tongue Towed

Rear Finishing Broom included (most competitors do not include the rear broom as standard equipment).

PR72 "Quick Attach Swivel" QAS

PR72 "Quick Attach Swivel" QAS

"Quick Attach Swivel"™ Pro Groomer

Direct Mount Quick Attach Swivel models connect directly to the rear of tow vehicles. Groomer has no wheels, no frame, no tongue. Simply lift it when traveling from one location to another. 72" wide and 90" wide models available. Connects and disconnects (to tow vehicle) in less than 60 seconds. Mounts on vehicles with 1.25" or 2.00" rear receiver hitches and 3 Pt. Lift for sub compact Tractors. Performance meets Convenience.

Pro Infield Groomer

Making Infields Smooth is Easy. Leveling Them is the Hard Part and most competitors don't even claim their machines will level infields. All of our groomers actually level and there's no better groomer for leveling than our Pro Infield Groomer.

"Levels and Smoothens Infields".

**Removes
and Controls
Weeds**

For those who need the convenience of "easy travel" our direct mounted "Quick Attach" models remove the burden of tongue towing a groomer (or having to trailer it) to go from one location to another.

PR90 BigBoy QAS
"Quick Attach Swivel".

PR72 Tongue
Towed

"Quick Attach Swivel" QAS. Our Rear mount "Quick Attach Swivel" groomers connect and disconnect in less than 60 seconds. You can still use your tow vehicle for other uses. When it's "grooming time" attaching the groomer is quick & easy.

Rear mount "Quick Attach Swivel" groomers swivel when you groom to create a nicer finish. Most competitor rear attached groomers are rigid when grooming (they don't swivel) and they can't produce the same finish. We've combined rear quick attached and swivel technology that no competitor has accomplished.....it's an engineering feat only mastered by Heying Company.

Swivels When You Groom

- Tongue Stand for Tongue Towed models.
- Rear Pin Style Hitch / Drawbar for Quick Attach models.
- Rear Receiver Hitches (1.25" or 2.00") for Quick Attach models.
- Broom Extension Kit (makes a 72" Rear Broom into 90").

Why This Groomer? Perfect Leveling. Best Weed Pulling and Control. Does everything an infield groomer should do better than any other tool.

**If you're not
"leveling your infields"
you're not grooming**

and your not providing the playing surface players and coaches want. Properly preparing infields starts with the leveling process. Many tools can smoothen infields, very few tools can level them.

Heying Infield Groomers Will Level Infields.

Helping Those Who Help Others Play!

Give Them the Playing Surface They Deserve.
